New OASES Branding – Coming Soon!

November 2015

OASES USER GROUP 2016 ANNOUNCEMENT

We are pleased to confirm that Commssoft plans to hold a 2-day OASES User Group meeting (UG2016) on Tuesday March 1st and Wednesday March 2nd 2016 at the Radisson Blu Edwardian Heathrow Hotel, London Heathrow, U.K.

In line with past successful meetings, the first day will be spent with Commssoft providing updates on processes and new software functionality and the second day will involve more extensive user participation in roundtable workshops. A networking dinner will be held on Tuesday night.

UG2016 will review progress on the latest OASES enhancements and modules and will also include requirements gathering workshops for potential new functionality.

Commssoft will also review new developments to the OASES Service Desk and modifications priorities and will assess experience with the new OASES release and development models. Customer communications will continue to be a key focus as will mobility solutions and connectivity to other IT systems more generally.

As you will be aware, Commssoft has invested heavily in developing OASES to meet the dynamic requirements of a broadening customer base. Presentations may also be given by collaborating suppliers covering specific topics and other interfaces.

A more detailed agenda will be circulated within 3 weeks by **Martin Parsons** who is our Users Group Project Manager and invitations will go out shortly. For further information, please do not hesitate to contact him via email at mpp@commssoft.co.uk.
